PREFACE

This bibliography consolidates the five (English) annual supplements to the "List of Published Material by Members of the Economics Division". It is a supplement bringing up to date publication 57/1, which edition covered the published material for the years 1930-1956 inclusively.

In making the compilation the same principles have been adopted as for 57/1. The place of publication has been omitted; in the majority of cases it is Ottawa. The name of the issuing agency is included only if it is not the Economics Division. Reports of studies made jointly by the Economics Division and some other agency are listed as "In co-operation with ...". Items are arranged in chronological order within sections.

Publications not available from the Economics Division are indicated by an asterisk.

Bilingual publications are listed.

PREFACE

La présente bibliographie réunit les cinq suppléments annuels de la publication intitulée Travaux publiés par les membres de la Division de l'économie. Elle met à jour la publication no 57/1F, qui embrassait les publications des années 1930 à 1956 inclusivement.

En préparant la présente bibliographie, nous avons employé la même méthode que pour la publication 57/1F. Nous avons omis le lieu pour la publication qui, dans la plupart des cas, est Ottawa. Nous avons mentionné l'organisme qui est à l'origine de la publication seulement si ce n'est pas la Division de l'économie. Les rapports d'études préparés en liaison par la Division de l'économie et un autre organisme figurent avec la mention "en collaboration avec...". Les documents sont rangés par ordre chronologiques à l'intérieur de diverses rubriques.

Lorsqu'une publication est bilingue, nous l'avons indiqué.

The present situation is such that the only way to avoid a serious crisis is to take immediate action. It is necessary to reorganize the government and to reform the constitution. This is the only way to ensure the stability and prosperity of the country.

The government is now in a position to take the necessary steps to reorganize itself. It is necessary to appoint a new cabinet and to reform the constitution. This is the only way to ensure the stability and prosperity of the country. The government is now in a position to take the necessary steps to reorganize itself. It is necessary to appoint a new cabinet and to reform the constitution. This is the only way to ensure the stability and prosperity of the country.

There is no doubt that the government is now in a position to take the necessary steps to reorganize itself. It is necessary to appoint a new cabinet and to reform the constitution. This is the only way to ensure the stability and prosperity of the country.
